

Technology Transfer

On 17th November 2017, SCTIMST, represented by the Director Prof. Asha Kishore and ONYX Medicals, Meerut, UP represented by Mr. Harshvardhan signed the MOU for the Technology Transfer of **2 products Bioceramic graft materials based on Tricalcium phosphate and Hydroxyapatite compositions** developed in the Bioceramics Division of BMT Wing. These are used as synthetic bone graft materials.

Congratulations to the product development team of the Bioceramics Division led by Dr HK Varma at the BMT wing and the Technology Business Division for enabling the transfer.
