WELCOME MESSAGE

Welcome to Thiruvananthapuram

The management of stroke is rapidly changing and is being implemented in current practice. The Asian Stroke Summer School 2022 mainly focuses on this and facilitates Interventionists and Neurologists in practising evidence-based acute stroke management.

It's now 3 years since the last Asian Stroke Summer School in 2019 June, which was conducted in Vietnam. Building on the success of previous meetings, the Asian Stroke Summer School 2022 is being planned.

It is our great pleasure to welcome all of you for the Asian Stroke Summer School 2022 organised by Sree Chitra Tirunal Institute for Medical Sciences and Technology (SCTIMST) and Stroke Research Centre, Bern (SRCB). This vibrant conference will deepen knowledge and help exchange ideas freely through lectures by experts, simulator training sessions, group discussions and real-world case scenario discussions. We are sure the scenic backdrop of beautiful Kerala - 'The God's own country' - will add to the pleasure of the conference and provide perdurable memories beyond the academic feast.
