

Publications – January 2016

Sl.No	Publication	IF
1.	Potnuri A G, Allakonda L, Appavoo A, Saheera S, Nair R R. Targeting Histamine-2 receptor for prevention of cardiac remodelling in chronic pressure overload. <i>International Journal of Cardiology</i> . 2016;202:831-833.	4.036
2.	Mayuri PV, Bhatt A, Sabareeswaran A , Ramesh P. A novel leukodepletion filter from electrospun poly(ethylene-vinyl alcohol) membranes and evaluation of its efficiency. <i>International Journal of Polymeric Materials and Polymeric Biomaterials</i> . 2016;65(4):183-190.	3.568
3.	Mayuri P V, Ramesh P. Fabrication and characterization of silver nanoparticle impregnated uniaxially aligned fibre yarns by one-step electrospinning process. <i>Journal of Materials Science</i> . 2016;51(5):2739-2746.	2.371
4.	Reshma S C, Syama S, Mohanan PV. Nano-biointeractions of PEGylated and bare reduced graphene oxide on lung alveolar epithelial cells: A comparative in vitro study. <i>Colloids and Surfaces B: Biointerfaces</i> . 2015;140:104-116.	4.152
5.	Gayathri V, Varma HK, and Mohanan PV. Integration of Rabbit Adipose Derived Mesenchymal Stem Cells to Hydroxyapatite Burr Hole Button Device for Bone Interface Regeneration. <i>International Journal of Biomaterials</i> . 2016(10678):1-9 .
