

# Sensitization program in science, technology and innovation

## Inviting teachers who are the moulders of the next generation!

Through teaching, the teacher provides the student a world of imagination, reality, thoughts and passion which is influential in moulding him/her to take decisions with regard to the interests channelizing to different careers. Teaching thus becomes an art, be it any subject by which good teachers are remembered throughout a student's life— a credit that no other careers have!

Course Code: IIPC126

### Learning Science, Technology and innovation

With the aim of nurturing the culture of innovation in science and technology the orientation program would give an exposure to the teachers on the following themes :

- ⇒ Creating a spur for innovation
- ⇒ Interacting with science
- ⇒ How to make science teaching effective
- ⇒ Experimentation and analysis
- ⇒ Careers in science
- ⇒ Developments in science and technology
