

WORLD ENVIRONMENT DAY | 05 JUNE
Green Economy: Does it include you?

The relationship between the man and the environment has been established in the early periods itself. Human beings live in the kingdom of nature and interact with it constantly. The influence of nature in the form of the air he breathes, the water he drinks, the food he eats, and the flow of energy and information. Any change in the environment can not only result in devastating effects, but can also pose a threat to the human race.

5th June of every year is observed as World Environment Day to emphasize the importance of green environment in our lives and promote the worldwide awareness of the environment. The theme for World Environment Day this year is “Green Economy: Does it include you?”

World Environment Day is also a day for people from all walks of life to come together to ensure a cleaner, greener and brighter outlook for themselves and future generations. Everyone counts in this initiative and World Environment Day relies on you to make this happen. World environment day is an opportunity for us to get involved in fulfilling our responsibility of protecting our planet.
