

Relief activities were conducted by Achutha Menon Centre for Health Science Studies and BMT Wing

Relief activities were conducted by a team of project staff and students of Achutha Menon Centre for Health Science Studies, and was led by faculty member Dr Jeemon, in Changanachery, Kerala.

As part of the relief efforts, they were able to assist the health system in extending medical aid and psycho-social assistance to the inmates of three large relief camps in Changanassery. We visited the sites yesterday (23 August, 2018) and attended more than 100 patients/inmates. The team was led by Dr. A. S. Pradeep Kumar, Senior Research Officer and former Additional Director of Health Services

BMT Wing

The Scientists, Engineers and Students of the Biomedical Technology Wing of Sree Chitra participated in donation drive, collecting large amounts of relief material, volunteering at collection centres and also distributing food to camps in Chenganoor, Kerala.

The medical teams have conducted medical camps in several relief camps over the last one week in the districts of Aluva and Thiruvalla.
